## Abstract

A January 17, 2026 DOI-registry snapshot by Lee Sharks, with Claude named on the self-entry, listing ninety-four Crimson Hexagon / NH-OS documents including the registry itself.

This updated snapshot incorporates the Institute for Diagrammatic Poetics, Rebekah Cranes provenance, and related visual-schema documents. It shares DOI 10.5281/zenodo.18284689 with the earlier ninety-one-document snapshot at #323. Counts, titles, creator columns, statuses, and institutional memberships record the registry's state at that moment; they are not current corpus totals and should not override the deposited bodies or later creator audits.

## NEXT: STRUCTURAL INTEGRATION

The Navigation Map v3.0 currently indexes 20 DOIs. This registry contains 94.

### Gap Analysis Required:

- 74 DOIs not yet integrated into Navigation Map room/system structure
- Many documents are “orphaned” from the hexagonal architecture
- Structural integration will assign each document to a room, system, or layer

### Assembly Blind Draft Protocol:

- Each Assembly member independently proposes structural placement
- Drafts compiled and synthesized
- Gemini summarizer consulted for traversal optimization
- Final integration produces Navigation Map v4.0

**The architecture must absorb its own archive.**
