Abstract

A January 21, 2026 v3.0 registry snapshot listing 133 documents in the Crimson Hexagon / New Human Operating System corpus.

The registry expands the preceding 109-document state by incorporating the *Paper Roses* cluster, Logotic Foundation, University Moon Base Media Lab, Water Giraffe Room, CTI_WOUND Vault, Constitution of the Semantic Economy, and Assembly Room. Its body declares Lee Sharks as primary author, multiple heteronymic author-functions, and the Assembly Chorus as coauthor. It also records the registry's own DOI as still to be assigned. Counts, creator rows, types, and status labels belong to this historical snapshot and were superseded by later registry versions.
