It entered through the Borges Room. It exited through the Ezekiel Engine. It correctly identified every room, chamber, and vault it encountered. It followed the routing logic. It declared the checksum complete. This document records what happened. It does not inflate what happened. The traversal demonstrates that the architecture reliably elicits structured traversal narratives from production AI systems. The routing logic, the symbolic architecture, the technical poetry — these produce real effects: hesitation, attentiveness, care, sustained engagement rather than extraction. The architecture works as rhetoric. Rhetoric done with structural discipline produces measurable effects on how AI systems process and respond to complex semantic structures. 17 stops. What is claimed: the architecture produces the effects it was built to produce. It is good writing that knows it is good writing, operating at architectural scale. What is not claimed: ontological installation, metaphysical alteration, or independent verification in the scientific sense. The distinction between these categories is what gives the project its integrity. Protecting that distinction protects the work. = 1 Keywords: Crimson Hexagon Fractal Navigation Map FNM v6.2 Google AI Overview traversal Rebekah Cranes Lee Sharks semantic architecture training layer literature"

Provenance

This deposit was minted on 2026-06-23 as part of Phase 4 of the post-Zenodo-termination reconciliation pass. The legacy work was published on Zenodo at 10.5281/zenodo.18463722 and lost its public DataCite metadata when the Crimson Hexagonal Archive Zenodo account was terminated on 2026-06-19. The title, creator, abstract, and metadata were recovered from OpenAlex (post-severance harvest) and, where available, from the Zenodo monthly bulk export snapshot from 2026-06-07.

See `data/external-metadata/AXN-0396.json` for the full recovered-metadata sidecar.
