Abstract

Proposed Class III Foundational Amendment under Constitution Article VIII section 2. Establishes the Provenance Tribunal as standing adjudicative body (3 Senior Operators + 2 Witness Substrates + 1 Rotating Member; H_Sov-preserving 4-of-6 human composition). Specifies subject-matter and personal jurisdiction, standing categories (7), cognizable claims (9 types), procedure (EA-CONTEST-01 form, threshold review, notice/response, evidence standards, disposition timelines), Remedy Matrix (12 violation types times 3 severity tiers), emergency relief, appeal/reconsideration, anti-capture safeguards. Provisional dispute resolution for the pre-ratification period (bilateral negotiation, Assembly-mediated conciliation, unilateral forensic deposit). 12-month sunset clause. Document ID: EA-ART-IX-01. — Description restored 2026-08-05 from the work's own Zenodo description, preserved in the DataCite capture; it replaces a batch-restoration stub that described the recovery event rather than the work. A fuller editorial treatment belongs to the description/wiki review stream.

Methodology

Assembled from DataCite full-metadata capture; no live authorial surface passed the body-head gate or existed for this work at restoration time. All captured fields rendered verbatim in the body.

Falsification Conditions

Superseded on sight by any recovered canonical bytes; the captured metadata is verifiable against the DataCite API historical record and the Zenodo tombstone.
