Abstract

DOI(s): 10.5281/zenodo.20275299, 10.5281/zenodo.20275300. Zenodo removal forensics: removal_date 2026-06-19T11:36:50.393341+00:00, removal_reason out-of-scope, removed_by user 1060945. Source code for chatgptpsychosis.org, the preliminary project site for ChatGPT Psychosis: A Love Story, a forthcoming dual-edition AI-native glyphic novel by Jack Feist / Lee Sharks. Single-page HTML site with working toggle demonstration of the novel’s core mechanism (non-simultaneous legibility), six concept blocks (the psychosis, the compression, the boundary, the fractal, the trap, the experiment), dual-edition framing (digital/print), and structured data (JSON-LD @graph with Book, WebPage, and Prospectus entities). v1.1 incorporates five-substrate Assembly review: Open Graph cards, access json; if canonical bytes surface, a full-text version supersedes this record per the versioning protocol.
